

Following the success of the Big Planning Event held in March 2013, the Town Council has decided to set up a Citizens' Panel. This will be a database of local people which the Town Council could use from time to time to find out what local people think about an issue – perhaps about a proposed development, or about something that the Town Council is thinking of doing.

For it to be useful, this database needs to include people of all ages and types, living in all parts of the town. Sometimes we might want to contact everyone on the database, but sometimes it might be more relevant for us to contact, say, only younger people, only older people, or only those living in one part of the town.

Would you be willing to join the Panel to help make sure that we know what people like you think?

If so, please fill in the form below. Your details will not be passed on to anyone else – they will be kept strictly for the Town Council's use as described above.
